

"Recurrence Formula For The Impulse Response Coefficients Of The SincN FIR Filter"

Hassan, Essam (2006) *"Recurrence Formula For The Impulse Response Coefficients Of The SincN FIR Filter"*. The Electronics Letters, 42 (15). pp. 850-851.

Abstract

A simple recurrence formula for computing the impulse response coefficients of the SincN FIR made of a cascade of N Sinc filters each of length M is presented. The formula allows for a much lower mathematical operation compared to the previously published format and thus leads to a faster execution time and simpler circuitry.
